SATURDAY, JULY 10, 1880.

John H. Robinson, of Toronto, was sworn in Lieut.-Governor of the Province of Ontario on Thursday last in presence of the Chief Justice of the Province and the Judges of the Superior Courts.

Cable despatch from London, Eng., is the important information that Agents General of Canada and the Provinces are endeavoring for the establishment of closer relations between Great Britain and her colonies, by assisting immigration and the establishment of commercial relations for defence. If this can be accomplished, it will be a step in the right direction, and all other means merely by way of details to the accomplishment of the arrangement are readily considered.

It is to be hoped and trusted that Agents General of Canada will not only endeavor to induce the right class of people to emigrate to Canada, but will also endeavor to induce the right class of capitalists to invest their money in Canada. If all Agents General of Canada will do this, and will endeavor to induce capitalists to invest their money in Canada, and will do all they can to induce the right class of people to emigrate to Canada, the Agents General of Canada will be doing a good work, and will be earning their salaries. We hope and trust that the Agents General of Canada will not only endeavor to induce the right class of people to emigrate to Canada, but will also endeavor to induce the right class of capitalists to invest their money in Canada, and will do all they can to induce the right class of people to emigrate to Canada, the Agents General of Canada will be doing a good work, and will be earning their salaries.

CURRENT COMMENT.

National Economy.

To the Editor of The Beaver.

Dear Sir,—In the Weekly Globe of 30th inst., I find the following paragraph, and though having no time at present to devote to the subject, I cannot let so gross a misrepresentation of our positions pass without properly characterizing it. The Globe says:

"We are told by the ex-enemy about that a protective tariff is a national economy policy. The more the people get of it the richer they become. And yet protectionist means enough to pay off the national debt and the entire cost of their piece of the Pacific Railway in a single year, and with considerable ease on their remaining mortgages. Why not do it? Why not abolish the duty and keep that money where it should be? Why not have a policy which would enable us to pay off the debt in a policy which would enable us to pay off the debt in a policy which would enable us to pay off the debt in

Napanee Beaver.

SATURDAY, JULY 10, 1880.

Stock Sold.

A merchant of L'Original has purchased the stock of goods, etc., of the Spencer estate and has removed it to that village.

Completed.

The enlargement of cavalry which has been engaged putting in their annual drill at Bath, was broken up on Saturday last, having completed the number of days allotted them.

School Board.

Tuesday evening was the regular meeting night of the school board, but as a quorum could not be got together, no meeting was held.

Cricket.

A team selected from the first and second eleven of the Napanee Cricket club, went to Picton on Wednesday by steamer Flight, to play a match with the club of that town, but they were beaten by an innings and fifty two runs.

Harvest.

A considerable barley in different portions of the county will be ready to harvest next week. Saying will be quite early and we believe next week is over. Harvest, as a general rule, is nearly two weeks earlier than usual.

A Monster Camp Meeting.

At a Short of Rev. Church, is contemplating a monster camp meeting at some convenient point in the township of Ernestown, of Wednesday. Should he decide upon holding the meeting, the services will be held under a large tent with a capacity for seating 2,500.

Glorious Wheat.

Mr. D. G. Fraser, of Northport, formerly of the township of Richmond, had upon our table on Wednesday an excellent sample of a brown wheat with large head and large grain. Mr. Fraser is an excellent farmer, and displays considerable enterprise in obtaining the best grain and stock to be had.

New Hotel.

Mr. Charles Cornell, of the Queen's, has leased the Stevenson store, on the corner of Dundas and East streets and intends fitting it up at once as a hotel. The stand ought to be a good one and as Charlie is a jovial fellow and thoroughly understands catering to the public, he ought certainly to succeed in the venture. He expects to open up about the first of August.

Explanatory.

The following communication explains itself:

Editor of The Beaver.—

Sir,—I do not wish to be put upon to say—did not send any correspondence from the—last week to The Beaver.

Yours, JOHN O. POST

Who may add that the "intelligent newspaper" pinned Mr. Postle's nose de plume to our Kingville correspondence of last week without authority?

Ask her Suicide.

The press is continuing the farmers against a new evergreen called the Russian mammoth. It is a cross of spruce-looking, smooth-leaved osage as ground enabling contrasts with far more for all the hedge plants we have seen, just at a large figure, the contract is duly signed, but on a few days the contract terms up as a note signed by the commissioners of the trustee and now held by a third party, and which the latter alleges that the money on the same has worked successfully in other parts.

Executors.

The Tea Rose of Napanee have very favorable, large percentage of them are throwing nicely; those that were set out previously have also taken a fresh lease of life, from the copious rains and warm sunshine of the past two months, and in a very short time most of our principal streets will be transformed into beautifully shaded avenues. We notice a decided move on the part of most of our citizens to give the trees in front of their premises proper care and attention, and this is as it should be. The corporation should hold out liberal inducements to parties to set out shade trees, and then assist in their protection by causing the streets and streets are not allowed as a public pasture ground for all the cattle and other animals in the corporation.

Death of H. H. Corbett.

The remains of the late proprietor of the Belmont H. H. Church, in the township of North Fredericksburgh, opposite this town, were interred on Thursday last. Rev. Dr. Ingram, President of Albert University, preached a sermon in the church at 10:30 A.M., and the G. S. Rankine, of Napanee, officiated in the cemetery. The funeral was largely attended by people from the surrounding country. The deceased was in his 70th year. On the following evening a memorial service was held in the church, which was also largely and profitably attended. The Belmont H. H. Church is now in charge of Rev. A. Sharpe, Rev. Messrs. Jeffers, Sparling, Hall, Ingram, Wilson, Ferguson, Hicks, Mr
